About The Brigade

The Ernesto Ché Guevara Volunteer Work Brigade is an annual project of the Canadian Network on Cuba in collaboration with the Cuban Institute of Friendship with the Peoples (ICAP).

Combining education and exploration with light volunteer work, the Brigade represents a unique opportunity to experience the *real* Cuba beyond the beaches and resorts, to witness Cuban socialism firsthand, and to build solidarity with the heroic Cuban people in their struggle against the criminal US blockade. The special 30th Brigade is centered in and around Havana and The Isle of Youth, Cuba's largest island secondary to the mainland.
